UNDERSTANDING AND UNLOCKING THE FUTURE OF PUBLIC SAFETY WITH AI AT THE INAUGURAL INTERNATIONAL SYMPOSIUM

Your opportunity to:

- **Network** with public safety colleagues, AI experts, and AI vendors.
- **Experience** real-time AI job-related demonstrations.
- **Learn** about the latest AI uses in public safety.
- **Hear** from global AI leaders and practitioners.
- **Understand** how AI improves efficiency and productivity in public safety agencies.
- **Recognize** the important role of critical thinking.
- **Discover** how AI is applied to internal/administrative investigations.
- **Discuss** potential AI misuse by employees and others.
- **Explore** cutting-edge AI technologies through vendor networking.
- **Delve** into policy content, concerns, and training.
- **Stay** updated on the latest legal decisions about AI and risk management concerns.
- **Avoid** pitfalls experienced by others in public safety settings.
- **Receive** a comprehensive, peer-reviewed sample Public Safety AI Policy.
- **Enjoy** the vibrant city of Las Vegas.

Are you ready to step into the future of public safety? Join us at the inaugural groundbreaking *Public Safety & Artificial Intelligence International Symposium.* This is not just an event, but a unique platform that brings together the brightest minds in Artificial Intelligence (AI) and public safety from across the globe, some of whom consult with the United Nations on AI.

Whatever your public safety role—administrator, policymaker, data analyst, technology or first-line supervisor, trainer, instructional designer, investigator, association representative, or simply an AI enthusiast--this symposium is your gateway to understanding, implementing, and harnessing the power of AI.

In a world where staffing shortages are a reality, AI can serve as a "personnel multiplier," improving efficiency and productivity. Learn from the successes and mistakes of others, gain insights from leaders in this ever-changing field, and avoid costly errors that could erode public trust.

AI software developers have been invited to exhibit their products and answer your questions. There will be a dedicated "hospitality session" to meet the vendors that supplements meeting with them during the day to learn about their products, and get your specific questions answered.

This is the only Public Safety AI Symposium to offer you and your team the breadth and depth of internationally and nationally recognized AI developers and public safety AI experts and practitioners. You'll have the chance to learn from **Neil Sahota**, IBM-designated "Master Inventor" and United Nations AI advisor, California Senator **Joe Dunn, Esq.** (ret.) co-facilitator of AI investigative applications, **Jay Stanley**, American Civil Liberties Union (ACLU), the **Honorable Curtis Gomez,** practicing attorneys, Public Safety administrators who have implemented AI, and from AI practitioners.

WHY ATTEND?

Expert Insights: Learn from leaders in AI development and implementation who have navigated the complexities of integrating AI into public safety agencies globally and locally. Gain invaluable insights into proven practices and strategies to avoid common pitfalls.

Comprehensive Coverage: Delve into crucial topics such as legal implications, privacy concerns, ethical considerations, and the impact of AI on civil and/or human rights. Explore how AI can enhance many operations including investigations, personnel scheduling, robotics, video editing, report writing, data analysis, and forecasting.

Practical Learning: Benefit from practical sessions on AI applications and platforms, tailored training methodologies, and real-world case studies. Equip yourself with tools to develop policies and procedures specific to public safety needs with the assistance of AI.

Networking Opportunities: Engage with AI software purveyors showcasing their latest innovations. Meet industry experts, share ideas, and forge collaborations driving the future of public safety technology.

Stay Ahead: In an ever-evolving landscape, stay ahead of the curve with insights into emerging AI technologies like Open AI's *ChatGPT,* Google's *Gemini*, Microsoft's *Copilot*, and more. Understand their capabilities, differences, and how they can be leveraged in your agency.

WHO SHOULD ATTEND?

Public Safety Officials: Discover how AI can optimize emergency response, enhance surveillance systems, and improve overall operational efficiency.

Policy Makers & Risk Managers: Gain critical knowledge to craft informed AI policies that balance innovation with privacy, ethics, and public trust.

Public Safety Practitioners, Researchers, Attorneys, Trainers, and Association Representatives: Learn how AI is being used as a necessary and important assistant in internal affairs and criminal investigations, discipline, curricula development, data analysis, and predictive forecasting.

Technology Enthusiasts: Explore the limitless potential of AI in transforming public safety practices and its broader societal implications.

DATES

February 3-5, 2025.
(last day ends at noon)

LOCATION

The Gold Coast Hotel
West Flamingo Road,
Las Vegas, NV.

JOIN US

Don't miss this unique opportunity to understand many innovations, advances, hurdles and mistakes others have made in the identification, adoption, and management of public safety Artificial Intelligence applications. Whether you are looking to refine your agency's AI strategy, understand the legal landscape, or explore new AI applications, the *Public Safety & Artificial Intelligence International Symposium* is where you need to be.

Join us, learn, network, and be part of shaping the future of public safety with AI. *Register today!*

ROOM RATE

$37 per day, plus daily resort fee and tax. Please use AELE Group Discount Code: AISB24C, if you call to reserve a room: 888.402.6278. Book now to get the discounted room rate because you can always cancel. The room block expires on **January 3, 2025.**

ROOM BOOKING WEBSITE

If you use the Booking Website: https://book.passkey.com/e/50854969 , which is recommended, you may not need the discount code when using this link.

TUITION

$695 per person. Payment must be received prior to the Symposium. Tuition includes symposium handbook, sample AI policy with procedures, presentations, coffee, pastries, lunches on Monday and Tuesday, hospitality session, vendor access, and certificate.

Registration, click here.

CANCELLATION POLICY

$300 cancellation fee, if cancellation is made after January 17, 2025. Another attendee may be substituted.

The Symposium is curated by John G. Peters, Jr., Ph.D. and co-produced by the Americans for Effective Law Enforcement, Inc. (AELE), and the Institute for the Prevention of In-Custody Deaths, Inc. (IPICD). Symposium daily agenda of presenters and presentation topics will be posted on the AELE (www.aele.org) and IPICD (www.ipicd.com) websites after finalization.
